

"EmployabilityUK has given our Graduate Trainees the opportunity to positively impact on their students' development and has benefitted them personally by adding real value and satisfaction to them as mentors."

Learning and Development Manager, UTC Aerospace Systems

"At the start of the programme, my mentee lacked confidence and direction. After three months on this amazing programme, he had developed his communication skills and was able to present his work to a large audience of business leaders."

Corporate Business Development Manager, Mercedes-Benz

"It has been truly transformational. We have students presenting here today that would not have even spoken out in a lesson last October. This programme really is going to change some of our young people's lives."

Vice Principal, South Wolverhampton and Bilston Academy

Unique community programmes designed by experts, tailored for your business

- Employee volunteering opportunities
- Attract new talent
- Enhance your brand

We are a charity that creates bespoke employee volunteering programmes for companies to work with schools and youth organisations, raising the aspirations, confidence and work-readiness of young people.

Do you want to grow your reputation in the community?

Through working with young people to enhance their knowledge of the world of work, your employees will get the opportunity to give something back to the local community, while developing their own skills.

By partnering with EmployabilityUK, a registered charity, your careers messages, promotions and marketing can reach as many people as you want.

We meet with you to understand your priorities and plans, then we design, develop and facilitate the delivery of a bespoke programme for you. In fact, we manage the whole process.

Your programme will include the employee volunteering activities that are important to you. These are some of the modules we have successfully implemented:

Mentoring

Use the skills and expertise your people have to inspire a young person and help prepare them for their future by:

- Giving professional advice and encouragement
- Raising confidence and aspirations
- Advising on how to prepare a professional CV
- Helping students to 'stand out from the crowd'

Delivering employability skills workshops

Bring your knowledge and experience in to the classroom with opportunities to promote your business through:

- Presentations designed to help students understand the various pathways to employment
- Activities to improve communication and team working skills
- Completing application forms and conducting mock interviews
- Coaching young people to achieve their full potential

Hosting workplace visits

Visiting a real work environment is a tremendous opportunity for students to get a feeling of what the world of work is actually like. It will really add the 'wow' factor to your programme by:

- Giving students first-hand knowledge of your role, company and industry
- Demonstrating workplace behaviour
- Encouraging an interest in your organisation
- Offering a great opportunity to showcase your brand

"We share EmployabilityUK's passion for giving young people the skills and confidence to enter the workplace and succeed in their chosen career.

We chose to work with Di and her team because the programme was specially designed to offer our employees the opportunity to be part of an incredibly valuable and rewarding experience. The perfect win-win scenario."

CR Manager - Coventry Building Society

Make a difference to the lives of young people by partnering with EmployabilityUK

- Professional development opportunities for employee volunteers in all areas of your business
- Managed process, everything is organised for you
- Personalised reports so you can keep track of your community giving
- Bespoke materials, designed and supplied by us and training is also included
- Clear benefits to both your CSR and HR deliverables
- Become widely known for your active support in your community
- Working with just 3 or 4 local secondary schools can positively impact the lives of over 100 students
